

REMARKS:

A new copy of Figure 1 is attached hereto in which the reference numerals have been corrected. An incorrect Figure 1 was originally filed in which it had the right illustration but entirely the wrong reference numerals. There was no consistency therefore between the reference numerals of Figure 1, the description and those in the remaining figures. The reference numerals in Figure 1 have therefore been changed and the remaining reference numerals in the description and remaining drawings are now consistent.

The corrections in the specification and claims correct merely minor clerical errors and inconsistent language as will be immediately apparent and thus it is believed do not require specific explanation.

Respectfully submitted
